The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply								
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).								
Status								
1)[Responsive to communication(s) filed on 03 January 2006.							
2a)⊠	This action is FINAL . 2b)							
3)□	Since this application is in condition for all	Since this application is in condition for allowance except for formal matters, prosecution as to the merits is						
	closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.							
Disposition of Claims								
4) Claim(s) 1-9 is/are pending in the application.								
4a) Of the above claim(s) is/are withdrawn from consideration.								
5) Claim(s) is/are allowed.								
6)⊠ Claim(s) <u>1-9</u> is/are rejected.								
7)	Claim(s) is/are objected to.							
8) Claim(s) are subject to restriction and/or election requirement.								
Application Papers								
9) The specification is objected to by the Examiner.								
10)	The drawing(s) filed on is/are: a)	accepted or b)	\square objected to by the E	Examiner.				
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).								
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).								
11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.								
Priority under 35 U.S.C. § 119								
12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of:								
	1. Certified copies of the priority documents have been received.							
2. Certified copies of the priority documents have been received in Application No								
3. Copies of the certified copies of the priority documents have been received in this National Stage								
application from the International Bureau (PCT Rule 17.2(a)).								
* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

1. Receipt of the papers filed on January 3, 2006, is acknowledged. Claims 10 and 11 have been canceled. Claims 1-9 are pending.

- 2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 3. The amendments are deemed to have overcome the rejection under 35 U.S.C. 112, second paragraph.

Claim Rejections - 35 USC § 103

- 4. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reid et al (US 2001/0015311) in view of the Lowenheim text *Electroplating* and Barstad et al (US 2001/0047942) for the reasons given in the previous office action and in view of the following comments.
- Applicant's Remarks have been carefully considered but are not deemed to be persuasive. Applicant argues that the reference of record fail to teach that the chloride concentration is related to providing gap fill of substrate features having an aspect ratio of 8 or more. This argument is not convincing. Reid et al is directed to filling features with a range of aspect ratios without defects. See the abstract. This broad teaching of aspect ratios suggests an aspect ratio of 8 or more as now claimed. Lowenheim teaches that for proper action of the organic additives in a copper plating, a small amount of chloride is necessary. In table 12-7 Lowenheim lists a range of chloride from 0.02-0.08 g/l. The teaching of Lowenheim suggests that it within the skill of

Application/Control Number: 10/682,275 Page 3

Art Unit: 1742

one of ordinary skill to determine the amount of chloride to produce successful plating, i.e. plating without defects as produced by Reid et al. Based on the knowledge that chloride concentration is a result-effective variable, one of ordinary skill in the art would have been able

to either add more or less chloride until the desired results were obtained.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this

Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this

final action.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to William T. Leader whose telephone number is 571-272-1245.

The examiner can normally be reached on Mondays-Thursdays and alternate Fridays, 7:30-4:00.

ROY KING PARAMANED

SUPERVISORY PATENT EXAMINER
